## Farm Women's Union Conference Held Here

Joint Conference of  
East-West Macleod  
Areas Held June 3rd.

Over eighty Farm Women's Union of Alberta delegates attended the joint conference of the East and West Macleod areas, held in the Oddfellow's Hall, in Vulcan, on Saturday, June 3rd, beginning at 10:00 a.m. Locals from High River, West High River, Nanton, Staveland, Berrywater, Red Cross, Arrowwood, Okotoks and DeWinton were represented. Mrs. H. B. Macleod of High River, F.W.U.A. director for District 12, presided at all sessions of the conference.

Mayor W. D. Allan welcomed the delegates, on behalf of the Town of Vulcan, at the beginning of the afternoon session.

Mrs. Ruth MacBride, former U.F.W.A. director, visiting from the States, recalled travelling from the Arrowwood district to Berrywater many years ago, with horse and buggy, over country unmarked by roads, to attend her first U.F.W.A. meeting. She emphasized the fact of individual responsibility, in repaying, in both community and national life, the richness we enjoy, through no effort of our own.

In her opening remarks, Mrs. H. B. Macleod pointed out the necessity for living our Christian ideals, before they are lost to us. Only by living our Christian ideology, she asserted, can we combat the Communist ideology, which is sweeping the world today. Mrs. Macleod also outlined the program of the United Nations for raising the status of women throughout the world, since where women are educated, backward countries do not exist.

On behalf of the Canadian Forestry Association, Mr. Homer Montgomery of Nanton outlined for the delegates the twenty-year program in progress for preserving the forests on the Eastern Slope of the Rockies, in order to maintain the Saskatchewan River, life-line of the prairies, in the years to come. The fact that in New York and Southern States water rationing is now in effect, should act as a grim warning to the people of Alberta, where, in 1949, 613,000 acres of timber was burned.

Mr. Milt Ward of Arrowwood, on behalf of the U.F.A. Central Co-operative, explained that the success of co-operatives depends on the support of all classes of people.

## Seventy Guests At Trousseau Tea

Complimenting her daughter, Miss Linda Fleming, whose marriage to Mr. Cecil Warden took place this week, Mrs. Charles W. Fleming received more than seventy guests at a pre-nuptial tea at her home, Wednesday afternoon May 31st.

Mrs. Grace Warden of Calgary, mother of the groom-elect, and Miss Linda Fleming assisted Mrs. Fleming in receiving the guests.

The tea table was centred with a floral arrangement of pink and white sweet peas in a silver basket, which reflected in the glow of lighted pink tapers.

Honors at the tea urns were performed by Mrs. D. A. McAfee, Mrs. C. Brodick and Mrs. C. Ottewill. The servitors were Mrs. D. Gonyea, Mrs. A. G. Saxby, Mrs. V. Johnson, Mrs. O. Bogner, Mrs. A. Hindle, Mrs. R. Jamison, Mrs. B. Palmer, Miss Lorna Robson, Miss Erma Graham and Miss Elaine Love.

Assisting the bride-elect in displaying her gifts were, Mrs. N. Budd and Mrs. G. Gardner, while Mrs. F. Bond and Mrs. B. Gonyea displayed the trousseau.

## School News

The parents and friends of the Vulcan students are invited to a display of shop work done during the year. This display will be held on the afternoon of Wednesday, June 14th, in the former High School building, beginning at 2:15. Tea will be served in the lunch room in the same building by the pupils of grades VII and VIII, at a nominal cost. A majority of the work will be on display. This is your opportunity to see what we are doing. Please come.

## \$50,000 Loss At Champion When Garage Burned

(Special to the Advocate)  
Fire which destroyed the large cinder block garage and service station of W. I. Harris, on June 1 at 10:30 p.m. resulted in a loss of about \$50,000.

Mr. Harris and three others, Lorne Lucas, Ernie Kranzler and Louis Graff, were working in the garage when a container of gasoline ignited.

Mr. Lucas, in attempting to carry the flaming mass outside, spilled some of the gas on his clothes which caught fire. The container fell to the floor and exploded blowing out both east and west walls of the building.

A fire extinguisher was played on Mr. Lucas, saving him from more serious burns. He received medical attention at the Carmangay hospital.

Mr. Harris suffered burns to his hands and lower part of face in crawling along the floor to close the safe doors which contained important records.

Cars belonging to Irvine Beaulieu, Louis Graff and Mr. Harris were completely destroyed along with two brand new trucks and an older one owned by Mr. Harris and one owned by George Wright. A year-old tractor, property of Ernest Rhodes Jr., was also burned.

A large coal house on the property of Elsworth Stewart, close by, fell prey to the flames. Champion was plunged into darkness shortly after the fire started, the main power line that serves the town having been burned, handicapping the local fire fighters as the electric pumps were of no use.

The loss is only partly covered by insurance.

Mr. Harris has now re-opened for business in his old garage.

le. Then, only, would they have any influence on government policy, with regard to marketing and international agreements.

Considerable discussion on the problems of the many Rural Electrification Associations, now being formed, followed a short talk on the subject by Mrs. Vera Gillespie of DeWinton, secretary of District 12.

Musical breaks, under the direction of Mrs. Lesley Richardson of Vulcan, sub-director of District 12, included community singing of folk tunes and the folk dance, "Waltzing Mathilda." Mrs. N. O'Hare presented two delightful vocal solos during the afternoon. Accompanist for the conference was Mrs. Norman Budd. The noon meal was catered to by the Kirkcaldy Women's Institute and was served in the basement of the hall.

Mrs. Harry Douglass, former director of District 12, thanked those responsible for the success of the conference. In her closing remarks, Mrs. H. B. Macleod urged full attendance at the annual F.W.A. Convention of the whole of District 12, to be held in the fall.

## Cancer Control Program Is Outlined To W.I. Delegates

Local and District  
Women at Three Day  
Course in Banff

Mrs. A. W. Maisey of Kirkcaldy Constituency Convener of Little Bow Constituency of Alberta Women's Institute, Mrs. D. MacKay of Kirkcaldy W.I., Mrs. W. Hill of Vulcan and Thigh Hill W.I., Mrs. Jack Marshall of Vulcan and Reid Hill W.I., Mrs. Knudson of Champion W.I. and Mrs. MacQuarrie of Barons W.I. returned home last week from Banff where they attended a Cancer Institute organized by the Alberta Women's Institute in cooperation with the Alberta Division of the Canadian Cancer Society, at the Banff School of Fine Arts, with the theme of "Blueprint for Action."

The three-day Institute was designed to create an informed group of women, in all parts of the province, versed in all aspects of the coordinated cancer control programme. One member from each Institute Branch in the southern

## Celebrate Golden Wedding

Mr. and Mrs. Charles Schuler of the district were "At Home" to a large number of friends, neighbors and relatives, May 19th, the occasion marking the couple's golden wedding anniversary.

A most pleasant social afternoon was enjoyed, when the bride and groom of half a century ago welcomed their guests, were photographed, presented with many tokens of affection and good wishes and partook of a delicious luncheon. Centering the tea table was a two-tiered wedding cake, made by Mrs. Ruth Christensen, a grand

daughter of the honored couple. Mr. and Mrs. Schuler, who are 74 and 69 respectively, were married in Germany, coming to Canada 40 years ago. Until 1948 they resided at Bodmin, Sask., and now make their home on the Harna farm north of town.

The couple have four sons, Pete and Carl, Viduan; Fred, Bodmin, Sask.; and Jack at Vancouver; and two daughters, Mrs. J. Hanna, Vulcan, and Mrs. A. Scharf, Saskatoon, Sask. There are also 20 grandchildren and nine great-grandchildren.

## Blood Transfusion Service Clinic To Be Here on June 22nd

Greater Number of  
Volunteers Needed  
For Donors Clinic Here

During the latter half of this month the Canadian Red Cross Society places a vital appeal before the citizens of Vulcan . . . an appeal for voluntary blood donors on behalf of hospital patients whose lives often depend upon the immediate blood transfusions they receive.

Citizens of Alberta are indeed fortunate that the Canadian Red Cross Society's free Blood Transfusion Service is now available in every hospital in the province. Life saving supplies of whole blood and plasma, held in readiness by the Red Cross, are now available whenever needed and without any cost whatsoever to the hospital patient.

The need of this Service is abundantly clear to us all. Relatives and friends are no longer burdened with the anxiety of frantically searching for donors of a suitable blood group, results of

which were often too late. With out this Service, blood transfusions would be costly . . . so costly indeed that they would often be beyond the means of smaller hospitals as well as many of the patients they serve. This Red Cross Service is now available in the Vulcan Municipal Hospital—many of the persons living in this district have already benefited from this service directly and many more lives will depend upon it in the future. It is the responsibility of the citizens of this district to give their support as voluntary blood donors when the clinic is held in Vulcan. By giving our blood freely when in good health, we are assured of a supply adequate that we, our wives and children, can get blood when illness or accident occurs.

The giving of blood is harmless to the giver and free from any discomfort or pain. The loss of blood is speedily made good. It is a service which can be performed by anyone enjoying normal health, man or woman, of town or country between the ages of 18 and 65.

In Southern Alberta during 1949 more than 15,000 transfusions of whole blood and plasma were administered to over 10,000 hospital patients. These figures indicate beyond any doubt the importance of the Canadian Red Cross Society's free Blood Transfusion Service.

To carry out this great humanitarian work the Red Cross needs your help . . . it needs you as a voluntary blood donor on June 22, between the hour of 7 and 9 p.m. in the Legion Hall. Leave your name at either drug store NOW.

## Bridal Shower

On the evening of May 31st, friends and oldtimers of the Vulcan and Reid Hill districts, gathered at the home of Mr. and Mrs. J. C. MacMillan, to honor Mrs. Anne Sproule and Mr. B. B. Dann, at a miscellaneous shower.

The many beautiful and useful gifts were presented to the guests of honor in a gaily decorated wagon, by little Gloria Jean Bowie,

## Salvation Army Needs Your Help

Thousands of people every year bless the selfless, untiring devotion to duty and the inspired care of Salvation Army Workers in the many personal services the Salvation Army offers to those less fortunate than ourselves. Veterans will remember the ever present "Sally Ann" canteen standing by with hot coffee and fresh doughnuts, wherever the going was the toughest. And after the war the Salvation Army has kept up its never ending fight to restore and rebuild shattered lives and broken spirits. But this work needs money—Your dollars can help the Army of Mercy continue the fight. The Salvation Army's Red Shield Appeal is now on. Please give generously. Give from the heart. Your donation may be left with Mrs. N. M. Thomas at the Treasury Branch.

## United Church 25th Anniversary Services on Sunday

The United Church of Canada will be 25 years old this coming Saturday June 10th. Services appropriate to the occasion are being observed throughout Canada this coming weekend. The celebrations will be held in the Vulcan United Church at the regular worship services on Sunday June 11th, at 11 a.m., and at 7:30 p.m. Reception of members and the Sacrament of the Lord's Supper will be held in the evening. At the close of the evening worship, there will be a social hour in the Church Hall. The Rev. A. R. Schrag, one-time Minister of the Vulcan Church, and commissioner to the first General Council of the United Church in 1925, will be the speaker for the day.

Though the United Church of Canada is perhaps the youngest Church in Canada, its background is from the beginning of the Christian Church. At the time of the Protestant Reformation, there were several main streams of church movements. As the years went by many subdivisions came into being. So we find that in the nineteenth century with divisions among older denominations, and the formations of new ones, that Protestantism seemed to spend more energy maintaining its divisions than in proclaiming the Gospel of Jesus Christ.

However in Canada, there were those who saw the foolishness of carrying over divisions that had occurred in the Old Countries of Europe, and which were aggravated in the United States. So in 1875 after a series of minor unions, four branches of the Presbyterian Church united to form the Presbyterian Church in Canada. Likewise a similar union took place among the branches of the Methodist Church in 1884. At the beginning of the twentieth century, the Congregational Churches formed a single denomination.

With the opening of Western Canada to settlement, choices had to be made as to how the Churches were going to provide services to the newcomers to the prairies. Those who put the importance of providing the preaching of the Gospel above sectarian viewpoint, worked at providing a solution. Agreements were made among the 3 churches most willing to co-operate. In the smaller towns, where one church was established, the others refrained from going. Sometimes changes were made to divide large areas among the co-operating Church. Often local Union churches were formed. This was the case in Vulcan. At the time of the larger Union there were some 1200 of these local Union Churches.

Negotiations were carried on from 1902 forward. Agreement was reached on a statement of Faith. For the Christian faith is essentially the same; and its statement varied little among the Churches affected. There were differences in methods of Church governments; but compromises

## District Schools Compete At Champion Track Meet

Champion Students  
Score 252½ Points,  
Brant 2nd, Vulcan 3rd

The Champion Schools played host to seven other schools at a Track Meet, Wednesday, May 31. Those invited to participate were: Carmangay, Reid Hill, Vulcan, Ensign, Kirkcaldy, Red Cross and Brant.

The meet was exceedingly well organized. Much credit is due Mr. Fred Cartwright, in charge of the public address system, who did an outstanding job in directing the events. Everything running along smoothly. Track lanes, pits, etc. were plainly marked so there was no confusion whatsoever.

Champion won the meet with a score of 252½ points. Second place went to Brant with 154½ points closely followed by Vulcan with 151. Carmangay gathered 76 points, Kirkcaldy 53, Reid Hill 38, Ensign 18 and Red Cross 17.

Trophies (cups) were presented by Mr. Cartwright, to the girl and boy having the highest individual score, who were: Janet Oakes of Brant and Mervin Brooks of Vulcan. Crests were presented to the pupils who were highest in their class. Winners were as follows:

Class A Girls—Helen Haverty, 14 pts., Vulcan. Class B Girls—Rosalie Hartung, 16 pts., Reid Hill. Class C Girls—Margaret Druhal, 11 pts., Brant. Class D Girls—Doreen Wittle, 15 pts., Carmangay. Class E Girls—Elizabeth Druhal, 10 pts., Brant. Class F Girls—Elaine Groves, 18½ pts., Champion.

Class A Boys—David Coe, 10 pts., Vulcan. Class B Boys—Earl Rinton, 20 pts., Kirkcaldy. Class C—Richard Hiltz, 9 pts., Vulcan. Class D Boys—Frank Bonnetti, 15 pts., Champion. Class E Boys—Eddie Barry, 8 pts., Champion. Class F Boys—Martin Berger, 14 pts., Champion.

Open Event 880 Yerd Dash—1. Allen Buchan, —Champion. 2. Mervin Brooks, —Vulcan. 3. Frank Bonnetti, —Champion. 4. Karl Schurman, —Champion.

Running Broad Jump, (Boys)—A—1. Jimmy Kennedy, —Brant 2. David Coe, —Vulcan. 3. Rodney (Continued on Page 8)

## Kicked By Cow 2-year-old Girl Dies

Glenda Groudin, two year old daughter of Mr. and Mrs. Ed Groudin of the Vulcan district, died on Wednesday, May 31, of injuries received when she was kicked by a cow at the Groudin farm north of town.

The little girl had gone to the barn with her two sisters to see a newly born calf and the cow presumably lashed out at her. She ran from the barn towards the house and her mother carried her inside and called the doctor. The child never regained consciousness and died on the way to hospital.

Coroner Dr. A. D. Tompkins de inquest necessary.

## Dann - Sproule Wedding Rites

On Sunday afternoon, June 4th, at 3 p.m. a quiet wedding was solemnized at the home of Mr. and Mrs. J. C. MacMillan, by the Rev. C. H. Rolis, when Mrs. Anne Sproule, daughter of Mrs. Mary McClement, became the bride of Mr. Benjamin B. Dann.

Given in marriage by her son, Mr. Dale Sproule, the bride looked smart in a navy tailored suit, with white accessories, and a corsage of American Beauty roses.

Her only attendant was her daughter, Miss June Sproule, who chose for the occasion a dainty afternoon frock of turquoise nylon taffeta, with white accessories, and carried a colonial bouquet of yellow carnations.

Mr. Walter Dann, eldest son of the groom, was best man.

Mrs. Mary McClement, mother of the bride, wore for the occasion a navy sheer ensemble with grey accessories and a corsage of red roses.

The reception rooms were tastefully decorated for the occasion with spring flowers. After the serving of a dainty luncheon Mr. and Mrs. Dann left for a wedding trip to Banff and points west.

## Stan Scales Elected President Lions Club For 1950-51 Term

Election of officers for the 1950-51 term was the main business at the regular Lions Club meeting Monday evening, June 5, with Stan Scales, local garage man, being named as president.

Stan Scales

Other officers elected are as follows: Boyd McKay, first vice-president; P. A. Thomas, second vice-president; G. A. Sales, secretary; M. R. Morrison, treasurer; W. A. Shields, lion tamer; M. D. McIntyre, tail twister. Earl Erickson and Dr. A. D. Tompkins were elected as directors for a two-year term. The other directors are William Giles and Howard Lurrell.

County Fair  
The Club decided to join with the Ladies Guild of St. Aldhelm's Church in sponsoring a "County Fair" this fall.

Swimming Pool  
The swimming pool committee advised that parts for the heating plant were expected soon and the pool would be in operation in the near future.

It was decided that the board fence at the front of the pool would be torn down and replaced with an open metal fence more in keeping with the beautiful rustic stone fence and approach to the pool recently completed by the Elks Lodge.

## Donations Still Needed For Flood Relief Fund

Time is fast running out for the Manitoba Flood Relief Fund, and the Vulcan District effort has a long way to go to contribute its share to the relief of the distress in Winnipeg and South Eastern Manitoba. Total to date is only \$500.00.

There has been no active personal contact campaign organized in a National Emergency such as this it is expected that no citizen of this community should need any personal urging to help in every way that is possible. All contributions will be thankfully received and faithfully applied.

Contributions may be left at the Municipal Office, Vulcan, the Canadian Bank of Commerce Vulcan or with the Steward at the Canadian Legion, or better yet, mail your check today to D. D. McQueen, Secretary, the Vulcan Branch Canadian Legion Manitoba Relief Fund. Remember all donations may be deducted from income tax. Receipts will be mailed from Vulcan, and every donation will be officially acknowledged by Manitoba Flood Relief Fund Headquarters in Winnipeg. Amount previously

### Blood Donors Needed

If you were in a position to save someone's life without any pain or discomfort to yourself, what would you do? Would you say "Let someone else do it" . . . . . Would you tell yourself you did not have the time to spare . . . or would you come forward and snatch that life back from the dark shadows, knowing full well that if you were ever in a similar position you too would want, and expect, to be helped? That situation faces you now.

You, Mrs. John Smith, farmer's wife, or John Brown, store clerk you can help save the life of some man, woman or child struck down by accident or sickness. Combined with the knowledge of modern medicine and the hands of a skilled surgeon, you can provide the one spark of hope so often needed to save a life.

The Canadian Red Cross will conduct a blood donor clinic in Vulcan on June 22 from 7 to 9 p.m. in the Legion Hall. The blood thus collected will be distributed to hospitals where patients whose very lives may depend upon transfusions will be able to receive the blood immediately and free of charge.

To supply the needs of the sick and the injured, over 700 blood donors are needed every week in Alberta. The Canadian Red Cross Blood Transfusion Service is the sole source of supply. The blood must be collected each week from voluntary donors in the cities, towns and hamlets wherever clinics are conducted. Human lives depend upon the success of each clinic . . . . . they depend upon the response of citizens in each community where clinics are held. Donors are only called once, or at most twice a year. This means that you are only asked to give one half hour of your time, plus a small amount of your blood each year to save a life. Is that asking too much?

From the town of Vulcan and district the Red Cross should receive at least 150 donations of blood each time the clinic is held here. In 1947 there were 101 blood donors at the clinic. In 1948 and 1949 the figure dropped to 68 donors for each of those years. Vulcan can do much better than that. Leave your name at either drug store or phone 152 or 145 and volunteer NOW as a donor.

### Fly Our Flag

Did you ever notice when touring the United States that Union Jacks or Canadian ensigns were flown from hot dog stands or wayside inns? No, never, as far as our experience goes. But we have seen Canadians flying Stars and Stripes as a welcoming gesture, which may or may not be appreciated.

The Americans are great flag wavers, for they are taught to revere the flag of "Sweet Land of Liberty," and you will see huge flags carried at the head of processions with a band playing martial airs.

But as Canadians, we are very modest in this respect. Take our own bands; do you ever see a large Canadian flag carried at the head of the procession? Americans see plenty of their own flags on their side of the border, and doubtless would rather see our Canadian flags more prominently displayed, when visiting Canada.

Or take a public gathering where the proceedings may be opened with the singing of "O Canada." Usually it is listlessly sung by half the audience, while the other half doesn't even know the words or the tune. Another example of our modesty or shyness, a hesitancy to express vocally our patriotic enthusiasm.

At almost every prize-fight or dog-fight in the United States you hear blared forth "O Say Can You See, by the Dawn's Early Light," etc. In case you don't know, they are the opening bars of the Star Spangled Banner, a stirring song if ever there was one.

Over here, rather than sing or play "Rule Britannia" in the Canadian Navy, they will now play "The Maple Leaf" or "O Canada," not that we blame them for it, but neither has the blood stirring qualities of these thunderous bars of "Rule Britannia." But to each his own flag, its own national anthem and other national symbols, by all means let us have them, and be proud of them, and show outwardly that we believe they stand for Canadian nationhood of which we so proudly boast.

Full security—food, shelter, clothing, medical attention, etc.—is available to any Canadian. Every jail provides it.

## Public Notice

By the Board of Trustees of the Foothills School Division No. 38 of the Province of Alberta.

Whereas it is deemed expedient by the Board of Trustees of the Foothills School Division No. 38 of the Province of Alberta, that the sum of Seventy Five Thousand Dollars should be borrowed on the security of the said Division by the issue of debentures repayable to the bearer in Fifteen equal consecutive annual instalments with interest at the rate of not more than six per centum per annum for the following purposes, namely:

Erecting additions to the Blackie School District No. 2823 brick school building and to the Brant School District No. 1283 frame school building. Therefore, notice is hereby given by the Board of the said School Division that unless a poll of the proprietary electors of the said School Division for and against the said debenture loan is demanded as provided by the School Act, the said Board will apply to the Board of Public Utility Commissioners for authority to borrow the said sum by debentures.

Of which all persons interested are hereby notified, and they are required to govern themselves accordingly.

T. C. Weidenhamer, Chairman.

Dated at High River, Alberta, This 5th Day of June, 1950.

### INSTRUCTIONS To Proprietary Electors In a School Division

A poll may be demanded in a School Division by a demand signed by five proprietary electors of each of at least twenty per cent of the districts in the division.

Every demand for a poll must be delivered to the Secretary of the Division or District or, in his absence, to the Chairman of the Board of Trustees, within Fifteen days after the date of posting of the last publication in a newspaper of this notice. A certified copy of the demand must be forwarded forthwith to the Board of Public Utility Commissioners of Alberta at Edmonton.

"Proprietary Elector" means any elector, other than a tenant, who is liable to assessment and taxation for school purposes in respect of any property situate in a School Division.

### NOTICE TO CREDITORS

IN THE MATTER OF THE ESTATE OF WILLIAM McMULLEN, late of Okotoks in the Province of Alberta, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims on the Estate of WILLIAM McMULLEN, who died on the 12th day of March, A.D. 1950, are required to file with the undersigned Solicitor for the Executors of his Estate by the seventeenth day of July, A.D. 1950, a full statement duly verified of their claims and of any securities held by them and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or brought to their knowledge.

DATED at Vulcan, Alberta, this 29th day of May, A.D. 1950. J. M. JAMISON, Solicitor for the Executors.

### NOTICE TO CREDITORS

IN THE MATTER OF THE ESTATE OF WILLIAM THEODORE STOLT, late of the town of Strathburg in the province of Saskatchewan, retired farmer, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims on the Estate of WILLIAM THEODORE STOLT, who died on the 9th day of August, 1949, are required to file with the undersigned Solicitor for the Executors of his Estate by the Twenty fourth day of July, A.D. 1950, a full statement duly verified of their claims and of any securities held by them and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or brought to their knowledge.

DATED at Vulcan, Alberta, this 5th day of June A.D. 1950. J. M. Jamison, Solicitor for the Executors.

### CARD OF THANKS

We wish to extend our sincere thanks to all friends and neighbors who assisted at the time of the fire at our farm.

—Mr. and Mrs. K. Drummond.

### CARD OF THANKS

I wish to express my thanks and appreciation to friends and neighbors for their assistance at the time of the fire at my farm.

—John Roebuck.

Original street lights were fiber torches.

## Rugged Individualism

Rugged individualism was for years the glory of the people of Canada and the United States. Came the depression and the second World War and something happened to individualism.

Individualism is important only in what is does to and for the individual. There is nothing sacred in a name.

If rugged individualism results in ragged individuals it is time to reconsider the concept of the term. The fact is that the old individualism we so long boasted of was a superb pioneer virtue that is outdated in the complicated technical and scientific age.

The individual, rugged or chicken-hearted, is a helpless chip on a stormy sea in this present-day world. He has no place in the grinding pressure of immense historical and economic events.

An isolated homesteader on the banks of the Red Deer river, a quarter of a century ago, was dependent pretty much on his own efforts. Today an incident in Hong Kong, or Berlin or a score of other strategic places around the world, affects everyone. The homesteader on the banks of the Red Deer river is a citizen of the world.

The same situation exists in economic affairs. Trade between nations is largely a governmental activity at the present time. It cannot be otherwise because half of the world is socialistic and most European and Asiatic nations are bankrupt.

The epic story of the rugged individualist is a romance of the past. Society is becoming more and more organized and the individual must work with the group or perish.—Brooks Bulletin.

## Early Fallow Operations Conserve Moisture

Considerable experimental data has been gathered at the Dominion Experimental Station at Swift Current, Saskatchewan, regarding moisture losses from summer-fallowed fields.

On one series of tests it was found that the depth of moisture in stubble land before commencing summerfallow operations was 24 inches. When fallow operations were started on this land on May 18th, the moisture was found to a depth of 36 inches by late fall. When summerfallowing was started on May 30th, the moisture was found only to a depth of 27 inches by late fall, and where fallow operations were not started until June 15th or later, moisture was found only to a depth of 24 inches or less, which equaled or was less than the amount in the land at the beginning of the season.

These figures also show that over half the moisture conserved was already present in the soil before summerfallowing operations were started. Therefore it would appear that during many years, the problem of conserving moisture is not so much a lack of rainfall, as it is of conserving the greater portion of precipitation.

Precipitation is lost by evaporation, run-off and plant growth.

The amount lost through evaporation and run-off, will vary with the soil type, climate and topography of the land. A good trash cover will tend to cut down moisture losses by run-off because the speed of the running water will be decreased, allowing more time for it to penetrate the soil. Losses by evaporation will also be lowered as the surface of the soil is protected from the hot, drying summer winds, and the direct rays of the sun. Moisture losses by plant growth can usually be controlled by cultural operations.

It is up to each individual farm operator to study his own particular farm, and the means at his disposal, also to adopt practices that will conserve the soil, and the maximum amount of moisture for next year's crop.

### IDENTIFYING WEEDS AND PREPARING SAMPLES

With the increasing use of 2, 4-D it is becoming more important that farmers, in recognizing weeds, should also be able to identify them by their correct names, and so link them up with recommendations for the use of 2, 4-D. Unfortunately most common weeds have different names varying with the locality and the individual.

In order to give some uniformity, a list of common names for weeds was adopted by the Western Weed Conference in 1949, and this may be obtained from the Dominion Experimental Station, Swift Current, Sask.

Weeds may be sent to federal and provincial institutions for identification, but unless they are reasonably well prepared identification is difficult because the plant has often dried out and arrives nothing more than powdered dust.

Here are some suggestions for preparing them. If the plant is to be mailed, a representative plant should be selected, dug out so that the roots can be sent, along with the leaves, flower, and if possible the fruit. The plant, without the fruit, should be placed between several thicknesses of newspaper under some books or other suitable weight, to allow drying without too much wilting. After a day or so, it can be placed between dry pieces of newspapers, and be mailed between two pieces of stiff cardboard to prevent unnecessary breakage.

If plants can be identified almost immediately they can be placed, fresh between the pages of a newspaper and the paper rolled. Carried in this fashion they will generally retain their shape and freshness for a day.

### TILLAGE IMPLEMENTS FOR SOIL CONSERVATION

Two factors responsible for soil erosion are removal of the protective blanket of vegetation and pulverization of the soil, says C. A. Cheshire, Extension Agricultural Engineer, Alberta Department of Agriculture. Before the days of cultivation on the prairies this protective blanket was the dense growth of grass which retained the rain where it fell and served to break the force of the wind at the soil surface. Excessive pulverization of the soil can be prevented by correct tillage practice. The original cover can best be replaced by periodical growth of forage crops.

Correct tillage practice includes not only the use of implements that will not grind the soil to powder. It means too that the speed of travel must be kept down. Speeds in excess of four miles an hour with any tillage im-

**Gardening**

By Gordon Lindsay Smith

**Won't Last Forever**

No matter how naturally rich a garden soil is, it will benefit from applications of fertilizer, because in this business, recreation, or whatever one likes to call it, fertilizer is like a tool, to be used in a variety of ways.

In the first place the gardener should understand that he is using the soil very intensively, very much more intensively in fact, than does the farmer. In a small plot of ground a great many things are grown and the same plot is used over and over again. Secondly, the fertilizer is being used for several purposes, not just to feed particular vegetables, flower or shrubbery, but to get bigger and better blooms, earlier vegetables, and in some cases to bring on growth or maturity quickly before frost or to get ahead of disease or insects.

**There are Several Kinds**

There are two main classes of fertilizer, the "natural" type like wellrotted barnyard manure, compost of rotted leaves, vegetable refuse, peat, etc., and what are known as chemical fertilizers which one buys in bags or packages. The first are particularly valuable for putting humus or fibre into the soil, for opening up heavy clays and adding strength to sandy soil. If they are unobtainable one can depend on the chemical variety entirely, though if at all possible one should also add compost or dig in what is termed green manure. This is simply a cover crop of oats, rye or almost anything that is green. The latter when well grown is dug or plowed under and allowed to rot.

Of the chemical or commercial fertilizers it is important to realize that these contain three main essentials—nitrogen, phosphoric acid and potash. These are usually shown by three figures with a dash between on the bag or package. As a rule when green growth is the important thing as with grass and leafy vegetables, then a fertilizer rich in nitrogen is wanted. Where root growth is dominant, as with potatoes, carrots, beets, etc., then a formula heavy in potash would suit. As a general rule a fairly evenly balanced mixture is best for the average garden.

**Must Use Carefully**

Chemical fertilizer must be used carefully and according to directions. If allowed to come in direct contact with the plants or roots it is liable to burn them. A safe plan is to first dissolve in water and apply or spread thinly during or just before a shower or hosing. That is also the proper time and way to apply this material on lawns.

For hastening growth of vegetables the experts usually mix a little quickacting fertilizer with the soil before sowing and then later spread a little close to, but not actually touching, the rows. For trees, shrubbery and big plants one can dig in fairly closely around the roots.

Where one suspects that the soil in the garden is deficient in some of the main chemical elements, it is a good plan to get a sample tested at the nearest experimental station. At times there is a simple thing lacking like potash or one of the rarer elements. In this case a special application of what is missing will really work wonders.

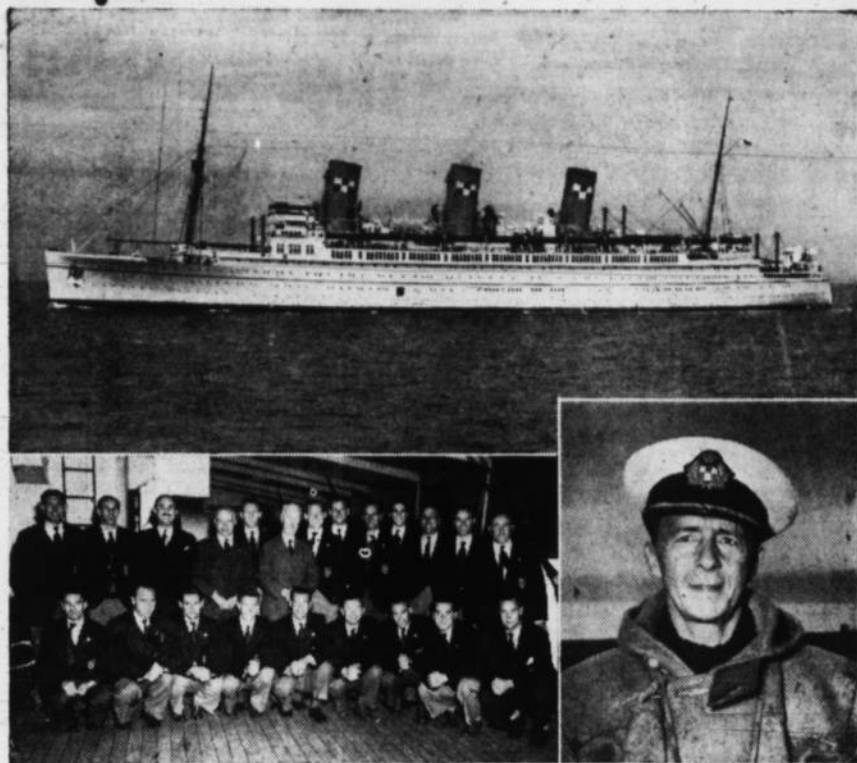

plement are speeds that invite destruction of our farms. Tillage machines when properly chosen and wisely used will leave a considerable portion of the plant material on the surface.

The one-way can be used on a stubble field to leave around one-third of the original stubble anchored to the surface. The discer can leave almost one half of the trash on the surface. The heavy duty cultivator can leave about two-thirds of the trash, while the blades and sweep type cultivators will leave as much as four-fifths. These figures apply to the first stroke only.

The second and third strokes with the one-way, or the discer, will reduce the protection to approximately one-eighth of the original stubble and weed cover. Second and third strokes with the heavy duty cultivator, the sweep type cultivators and the blade will leave from 40 to 70 per cent of the original trash on the surface.

Choose your implements with care, advises Mr. Cheshire, operate them wisely, and include in the rotation enough grass and legume crops to maintain fibre and fertility.

In the 9th century the Danes imposed a head tax which became known as the "nose tax." Hence the expression "pay through the nose."

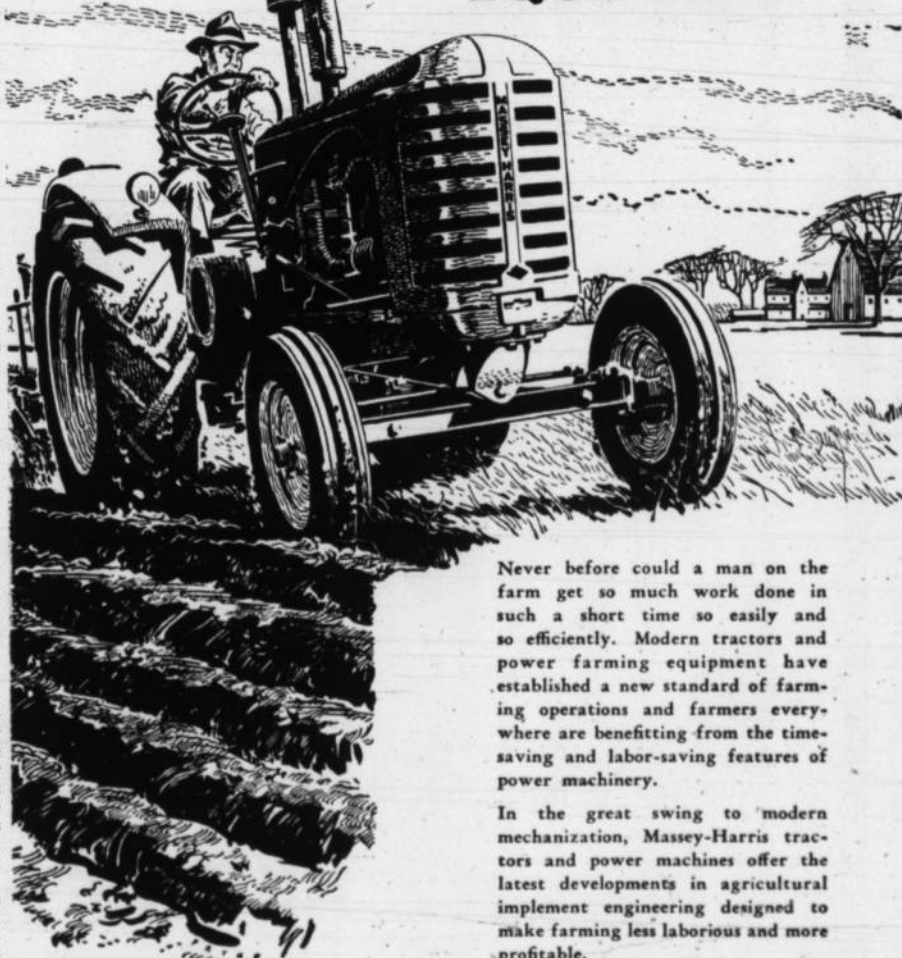

**RECORD BREAKER:** The newly-reconditioned flagship of the Canadian Pacific's Atlantic fleet, the 26,000-ton Empress of Scotland is pictured above as she passed Father Point on the St. Lawrence River just 120 hours and 36 minutes out of Greenock, Scotland, to establish a trans-Atlantic record between those two points on her post-war maiden voyage completed last week. Plying between Liver-

pool, Greenock, and Quebec City, the three-funnelled speedster carried on her first voyage, the All-England Football Team (lower left), which included among its ranks such stellar performers as Stan Matthews, Britain's "Mr. Football." The team, on a tour of Canada and the U.S. will play in Montreal, Toronto, Winnipeg, Calgary, Regina, Vancouver, Victoria and Detroit. Lower right inset shows the skipper of "Scotland,"

## MODERN FARMING Depends Upon POWER EQUIPMENT

Never before could a man on the farm get so much work done in such a short time so easily and so efficiently. Modern tractors and power farming equipment have established a new standard of farming operations and farmers everywhere are benefitting from the time-saving and labor-saving features of power machinery.

In the great swing to modern mechanization, Massey-Harris tractors and power machines offer the latest developments in agricultural implement engineering designed to make farming less laborious and more profitable.

## Champion

Mrs. E. Selland of Calgary was a recent visitor at the home of her son and daughter in law, Mr. and Mrs. W. Smith.

Mr. and Mrs. A. L. Siler and small son Richard spent the week end in Calgary at the home of Mrs. Siler's mother, Mrs. W. Ellis.

Mr. and Mrs. Norman Harris of Barons were Sunday visitors at the home of Mr. and Mrs. Walt Harris.

Mr. and Mrs. A. Bjornson had as their guests over the weekend Mrs. Halvorsen and Mr. McNeely of Lethbridge.

Mr. and Mrs. E. Wright of Lethbridge were weekend visitors at the home of the latter's brother in law and sister, Mr. and Mrs. M. Jones.

Mr. and Mrs. D. Stewart and niece, Karen Cook of Lethbridge were Sunday visitors at the home of Mrs. Stewart's parents, Mr. and Mrs. C. G. Miller.

Mr. C. Brown of Owendale, Alta. was a visitor last week at the home of his brother in law and sister, Mr. and Mrs. T. Barry.

Mr. and Mrs. L. Jones of Vulcan were recent visitors at the home of the former's brother and sister in law, Mr. and Mrs. M. Jones.

Mrs. P. Dawson entertained at a 1 o'clock luncheon party, Tuesday, May 30th, at her home, complimentary to Mrs. C. G. Taylor of Vulcan, formerly of Champion. Mrs. G. Voisey presided at the coffee urn.

6 lb. 10 oz. baby daughter (Laura Margaret) was born to Mr. and Mrs. G. Minty of Calgary (nee Laura Chaproniere of Champion) in the Holy Cross Hospital on May 13th.

Mr. and Mrs. J. O. Bell are spending a week's holiday at Waterton Lakes.

Mrs. Nellie Wheeler of Viroqua, Wisconsin, is paying an extended visit at the home of her brother and sister in law, Mr. and Mrs. Fred Wise.

The Champion ball club are participating in the Pincher Creek tournament, Wednesday, June 7th.

Among those attending the double header baseball game at Calgary, Sunday June 4th, were Mr. and Mrs. A. L. Siler, Mr. and Mrs. Harry E. Smith, Mervyn Smith, George Ellis and Bill Jopling.

Mrs. R. Sansome and her bro-

ther, Nelson Tinkess were visitors to Calgary. Enroute they visited their brother in law and sister, Mr. and Mrs. Ronald Perrott at Nanton.

Mr. and Mrs. Benny Fontana and children, Bernice and Ronnie of Coleman, were weekend guests at the home of the former's parents, Mr. and Mrs. P. Fontana.

Horace Gill of Calgary renewed acquaintances in town last week. Miss Margaret Carlson returned on Monday evening from Great Falls, where she spent two weeks' holiday at the home of her cousins, Mr. and Mrs. C. L. Carlson.

Fire destroyed the chicken house and brooder house on the farm of Mr. and Mrs. W. Racher, Saturday night May 27. A shipment of baby chicks had been received earlier in the day and they, along with about seventy-five hens, perished in the fire. It is thought that the oil burner used in the brooder house, which was attached onto the hen house, fanned by the high wind of the evening, caused the burner to overheat resulting in the fire. A group of friends and relatives lost no time in collecting a purse of money to assist Bill and LaQuita to replace their loss.

Mrs. Adam Ferguson and Mrs. Esther Ferguson spent a few days at Ponoka last week, guests of the former's son and daughter in law, Mr. and Mrs. Vic Ferguson.

W. Keenan left Wednesday evening May 31, by plane from Calgary, for his boyhood home in Stanley, New Brunswick, upon receiving word of the death of his father, Peter V. Keenan, who passed away earlier in the day. The sympathy of his many friends is extended to Mr. Keenan in his bereavement.

In the softball game played between the Kirkcaldy Kittens and the Lions Club on Sunday, June 4th, the local team defeated the Kittens by a 24 to 21 score.

The Stavelly nine played a return engagement at Champion with the local team Friday, evening, June 2. Owing to darkness the game was called at the end of eight innings.

Champion defeated their guests by a 15 to 4 score.

Stavelly 100-200-10-4

### CARD OF THANKS

We wish to extend our grateful thanks to all the friends and relatives who so kindly donated the money presented to us to replace our loss resulting from the fire in which all our chickens perished and our chicken houses destroyed. We are indeed very grateful to all.

Mr. and Mrs. W. Racher,  
Champion.

### PLANT MORE TREES

When winds are high, tempers fly. You must have noticed that in times of high wind and blowing dust almost everyone has a chip on his shoulder. It is often unwise to try to knock it off, particularly if you are carrying a similar chip yourself. Perhaps the wisest course is to temper the wind and thus help to remove the cause of irritation.

One way to do this, says A. M. Wilson, Alberta's Field Crops Commissioner, is to plant more trees around the farm and farmstead. Trees beautify the surroundings. They lower wind velocity in the sheltered area, reduce soil drifting, check excessive evaporation, and protect the crops and gardens. They help to hold the snow, so that in the spring it is released gradually into the thawing land to build up those much needed moisture reserves. Wise tree planting really makes life worth living.

Like everything else worth while there is a certain know-how to tree planting. Planning and preparation are essential. In the year before planting, the land should be thoroughly summerfallowed to conserve moisture and destroy weeds. Early ordering is important too.

Trees for next season may be ordered now from the Dominion Forest Nursery Station, Indian Head, Saskatchewan, or from the Department of Land and Forests, Administration Building, Edmonton. Orders should be placed early. The demand is keen and there is no assurance that trees can be provided from these sources if ordering is delayed even until early fall. Information on ordering trees, and suggestions on land tree planting for your farm can be obtained from your district agriculturist.

### THE "ARK ROYAL" RETURNS

A tragic loss to Britain's Royal Navy occurred on the 14th November, 1940, when the 22,000 ton aircraft carrier "Ark Royal" was torpedoed by a U-boat in the Western Mediterranean. The ship had only been completed on November 16th, 1938.

But the "Ark Royal" is back again. On May 2nd, Her Majesty the Queen launched at Birkenhead one of the world's most powerful warships, and named it—the "Ark Royal."

It will be the largest vessel but one serving with the Royal Navy and is surpassed in size only by H.M.S. "Vanguard."

50,000 people watched the launching of the 36,800 ton aircraft carrier. Her builder, Cammell Laird, took a most unusual step in the Royal ceremony. A false bow was added to the ship's hull so as to absorb any possible shock to the vessel as it entered the water—a protection considered advisable on account of her exceptional size and weight.

British football clubs say the reason so many fans faint at games is they go without lunch to get to the games.

Birds use mud as cement in building nests.

Most destructive insect ever to invade Canada's spruce-balsam forests is the spruce budworm.

Boys usually outnumber girls in Swedish birth statistics.

### NOTICE

and avoid disappointment later.

## American Red Cross Makes \$50,000 Gift

A \$50,000 gift to assist Canadian Red Cross to continue flood relief work in Manitoba has been received from the Washington headquarters of American Red Cross.

A telegram signed by Gen. George C. Marshall, president of the American National Red Cross, expressing "deepest concern and sympathy of the people of the United States" offered the quarter-million dollar gift.

The offer was accepted by John A. MacAulay, chairman, Central Council, Canadian Red Cross, who gave assurance that "this magnificent gift will be a great stimulus to the people of Manitoba and Canada in this time of distress."

The donation from American Red Cross arrived as Canadian Red Cross officials here were taking stock of the tremendous job of

emergency relief to flood victims still facing them.

During the past few weeks, Red Cross has provided emergency shelter, food, clothing and medical care for almost 20,000 persons and has directly evacuated 5,500 flood victims. Until the return to normal, the tremendous job of emergency relief will have to be continued.

## Hogs and Cattle

The federal minister of agriculture would not recommend that farmers in the prairie provinces should rush back into the production of hogs but he thinks that it would be wise to increase cattle production.

Said the minister: "Instead of cutting down the number of beef cattle on the farms of Western Canada we ought to be increasing it on our farms. There never was a time when higher prices could be obtained for beef cattle and there never was a time when more money could be made in beef cattle than at present . . . so I think we should be producing more and more cattle and we should be gradually getting into hogs. You can get into hogs in about a year's time but it takes about three years to get into two-year-old cattle and it is the two-year-olds that we want to sell. It is a mistake for farmers to be cutting their breeding herds down simply because they can get a good price and are afraid that they are not going to be able to get it later." —Wheat Pool Bulletin

Earnings of the average Canadian will buy more sugar today than 10 years ago. Butter and meat costs have risen greatly but sugar costs have not jumped as much as average wages have.

## Physical Activity Necessary During Child Development

People are born with a body that needs vigorous activity to keep it in condition, and they have to respect that need or content themselves with dwindling powers, says Dr. Daris W. Plewes in an article "Fitness is Their Heritage and You are Their Trustee"—in the current issue of the magazine HEALTH.

The article appears in the "Health in the School" section of the magazine which is published by the Health League of Canada. Dr. Plewes is Assistant Director of Physical Fitness, Department of National Health and Welfare, Ottawa.

"Properly developed and maintained vigorous activity is enjoyable and exhilarating," writes Dr. Plewes. "Most of us could be supple at 60 if we lived a physically active life. When society regards physical illiteracy as deplorably stupid and as socially unacceptable, then people will devote attention to the development of physical powers."

Dr. Plewes says men and women engaged in commerce and in industry may not need the muscular development and the strength of pioneers but good digestions sound hearts and lungs and a vigorous well-developed body are necessities for an efficient and satisfactory life.

She describes bodies as being made up of 206 bones moved by 696 muscles mobilized by thousands of nerve fibres and refreshed by 100,000 miles of blood vessels. All these are energized by a complex mechanism of internal organs. Designed for action, bodies are provided with remarkable devices for regeneration and repair.

"However, because the complex mechanisms of your body are subject to wear and tear, to sabotage and to breakdown it does

make a difference how you live," writes Dr. Plewes. "Improper food lowers energy supply, inadequate exercise depletes physical efficiency harmful substances sabotage nervous reactions. Emotional disturbances burn out some parts and paralyze others."

The chief business of a child is to grow and develop. Physical activities influence growth, but their chief contribution is to development.

## REDUCED ACREAGE IN MANITOBA

Manitoba department of agriculture officials doubt whether much of the estimated 500,000 acres of flooded farm land will produce much more than feed this year, forecasting a marked reduction in wheat and sugar beet acreage, and possibly sunflowers, with more attention to barley, flax and summerfallow.

Survey figures of the Bureau of Statistics show that poultry losses due to the flood have been heavy, but that other livestock losses have been limited. Market gardeners in the Winnipeg area have lost most of their bedding plants, their land is flooded, and the outlook is critical.

## The Identification Of Native Plants

An interesting part of farm and ranch life, often overlooked, involves a knowledge of the vegetation growing in the surrounding area. Most people are familiar with the main species but often don't know many of the less common plants. A good knowledge of taxonomy, as the identification of plant species is called, makes a walk over your fields an intensely interesting experience. You will soon see how certain plants grow very early in the spring, set seed, and are replaced by those growing later in the summer and fall. The grasses, meanwhile, are gradually developing with the seed heads becoming prominent in the summer and early fall.

There are other and more practical benefits to be derived from a knowledge of taxonomy. Knowing what weeds are growing in cultivated fields enables the operator to devise ways and means of controlling them. Certain plants also, are indicative of too heavy grazing on range pastures and their presence tells the range manager that he must decrease his rate of stocking or take other corrective measures. Again, since plants are the natural expression of soil and climate, a knowledge of the characteristics of soil and climate, a knowledge of these plants gives us a good basis for judging the composition of the soil and sub-soil.

There are numerous examples of plants which may be used as indicators. Wolf willow for instance, usually indicates an area with a gravelly or rocky sub-soil. Similarly, sand grass, as the name implies, grows in very light sandy soil. Western wheatgrass, in the drier areas of the province, is a useful indicator of areas of heavy soil. Wild barley or Fox-tail, as an indicator of alkaline areas, is known to every one.

Taxonomy is not a difficult subject. In general, broad groups of plants known as families are separated on the basis of relatively simple clear-cut characteristics. Then into species, in each case on the basis of differences. A knowledge of the parts of the plant is essential and can easily be obtained from any book on botany. In addition there are numerous books available in any bookstore dealing with the vegetative cover of this area and which can be used to positively identify any particular plant.

If difficulty is encountered in the identification of a plant, it may be sent to the Dominion Experimental Station in your area. Positive identification may require the full plant parts including parts of the roots and some seeds. However, if these parts are not available the plant, including the flower, may be wrapped up and sent in for identification.

### MUMMY OF PRINCESS CLOTHED IN SOLID GOLD

Archaeologists digging 30 miles north of Cairo, Egypt, recently unearthed a 2500-year-old mummy of an Egyptian princess buried in slippers and gloves of solid gold. Members of the Egyptian Antiquities Department pried open an 8,000-pound stone tomb to find the mummy—a princess of the 22nd dynasty.

Hieroglyphic inscriptions on the heavy quartz cover listed her as Himet Nissut Thait Ra, the wife of a prince who governed Etrub more than 500 years before Christ. Fingers of both her hands were gloved in layers of pure gold. Her feet were encased in solid gold sandals, of a style like those worn in the summertime by modern women.

The princess' crown and an assortment of precious jewels and

diamond ornaments lay beside the mummy. It was removed with extreme care to Cairo for study. The contents of the tomb were intact, although water from the Nile had seeped through the stone cover and caused some gold plating to chip off.

Archaeologist Neguib Farag, inspector of Eastern Delta Antiquities, who supervised the uncovering, said the find was one of the rare discoveries that diligent grave robbers had failed to reach in 25 centuries of search.

### Seed Flax Early

Farmers throughout the Prairie Provinces who plan to plant some flax this year, or those who may have already seeded, will be interested in the finding of W. E. Sackston, Associate Plant Pathologist, Dominion Laboratory of Plant Pathology, Winnipeg, Manitoba.

In the past it has been common practice to seed flax later than wheat, but Mr. Sackston points out that flax may be sowed quite as early as wheat, with gratifying results. It is recognized of course that flax will yield a fair crop even when seeded late but the experiments of the Dominion Laboratory show that fields of flax seeded relatively early apparently suffered less damage from disease, than fields seeded late.

The old theory of flax being susceptible to frost has been largely abandoned owing to the fact that hardier varieties have been developed. Because of the increased yields owing to these new varieties farmers are also thinking of flax as a profitable crop, which is a great improvement over the days when they looked upon it as merely an emergency crop to be seeded whenever weed growth, soil moisture or other factors made it impossible to seed other cereal grains sufficiently early to be sure of an adequate growing period.

Mr. Sackston reports that considerable injury was done by frost to plants sown May 2 when

### Field Crops Needed

The Honorable D. A. Ure, Minister of Agriculture, is again urging farmers to plant more grasses and legumes and feed crops in 1950, in order to assure an adequate supply of hay and feed grains. The Minister points out that the livestock industry is of such importance in the agricultural welfare of this Province that it should not be jeopardized by the possibility of a feed shortage. At the present time the beef cattle industry particularly is enjoying a period of considerable prosperity which might suffer seriously if adequate feed supplies were not available.

Mr. Ure points out that reserves of feed, both hay and grain, are somewhat below normal in many districts due to the short crop in 1949 and to the recent long, cold winter during which supplies were largely consumed. The sowing of more land to grass and hay crops not only assures a more permanent feed supply, but assists in conservation of the soil and the control of weeds, as well.

The provision of a feed reserve sufficient for at least one year is considered a "must" by many live stock owners. No one who depends on his live stock for any important portion of his annual revenue can ignore the need for ample reserves of feed.

Farmers who need assistance in planning their operations to provide sufficient feed will find every District Agriculturist ready to help, or information and suggestions may be secured from the Department of Agriculture.

temperature dropped to 23.8 degrees F. on May 24, 1949. The seedlings were about one and one-half inches high. Flax seeded May 12 and just emerging at the time of the frost suffered no apparent damage.

While it is obvious that there is an advantage to seeding flax early in order to obtain highest yields and to escape loss from disease, there is the ever-present danger of late spring frosts, similar to the one in 1949. Thus, in Manitoba, at least it would seem inadvisable to seed flax earlier than May 10. Seeding flax earlier as possible after this date is good farm practice.

## Skinny men, women gain 5, 10, 15 lbs.

Get New Pep, Vim, Vigor

What a thrill! Bony limbs fill out, ugly hollows fill up, neck no longer scrawny, body lines half-starved, sleek "bean-pole" look. ## Carmangay

Mrs. Clarence White and son from Nanton have been visiting at the home of her sister and brother in law, Mr. and Mrs. Arnold Board.

Mr. and Mrs. Ed Stettner were Lethbridge visitors on Tuesday.

Mrs. L. Roemmele Sr. spent a short holiday at her daughter's home in Claresholm and also visited at High River for several days.

Mr. and Mrs. Roy Craig were Lethbridge visitors on Monday.

Mr. and Mrs. L. Baldwin, accompanied by Mr. George Baldwin were Lethbridge visitors.

Mr. and Mrs. Harvey Hicks and daughter of Brockton were weekend guests at the home of Mrs. Wm. Hicks.

Miss Lila Hurnanen from Barrow spent the weekend with her parents Mr. and Mrs. John Hurnanen.

Miss Dorothy Brownell from Calgary was a guest at the home of her parents, Mr. and Mrs. Ed Brownell.

Mr. and Mrs. Ed Stettner and Larry and Mr. and Mrs. G. H. Nelson visited with Mr. and Mrs. O. W. Jensen in Calgary on Sunday.

Mr. and Mrs. Frank Bates and family motored to Hillsprings on Sunday and visited with relatives.

Members of the Carmangay School Staff including, Mr. Fyckes, Mr. Hutcheon, Mrs. Korath, Mrs. Whittle, Miss Dersch and Miss Kneiss attended the annual A.T.A. banquet in Claresholm on Thursday and reported a very enjoyable time.

The Carmangay girls' softball team played against the Nobleford team on Friday but were defeated with a score of 17-16.

Mr. and Mrs. Art Larson, accompanied by Mr. and Mrs. Sam Larsen from Lethbridge were Sunday guests at the home of Mrs. J. M. Nelson.

### Lions Carnival.

The Carmangay Lions Annual Carnival was held on June 2nd, and 3rd with a large crowd in attendance. The \$5 draw for Friday night was won by Mrs. E. McFarland while the \$5 draw on Saturday night was won by Bill Chalmers. Each year the Lions send a girl and boy from the district to the camp at Waterton with all expenses paid. The draws were: Boys, 1st, Vernon Soderquist; 2nd, Sloan Smith; 3rd, Murray Davies.

The Girls: 1st, Joan White; 2nd, Audrey Milliken; 3rd, Jean Miller. The big event of the evening was the crowning of the Lions Queen. Barbara McFarland and June McLeod were the two nominated as queens.

It ended in a very close contest with June McLeod as the crowned Queen. J. Hubka crowned the queen and presented her with a bouquet of flowers. Mr. Hubka also thanked the public for the interest and support they had given the club, stating that the proceeds were to be used for community purposes.

### Guild Meeting

Members of the Guild met at

the home of Mrs. Lee Baldwin for their May meeting, with several members present. They received an answer from the Dorcas Society stating that they had received the bundle of clothing and had sent some to the Manitoba Relief Society and the rest to the St. Paul's Hostel.

Articles were given out to be worked for the Bazaar. Mrs. Alice Knight won the hostess prize. Mrs. F. White and Mrs. A. Knight won the Victoria Day Contest. The hostess served a dainty lunch. The next meeting will be at Mrs. E. Collier's the last Thursday in June.

### Primrose Club

Nine members of the Primrose Club and one visitor were present at the meeting held at the home of Mrs. Arnold Bond on Wednesday afternoon. The afternoon was spent in working on different articles the members had started. Mrs. Archie McAlpine received a gift from the Travelling Case. The next meeting on June 21st will be at the home of Mrs. Hawkins Anderson when roll call will be answered by bringing a souvenir or heirloom. The members are to bring embroidery thread with which they will make tulips. On June 7th in the afternoon all those who care to are to meet at the Bowville Cemetery to help clean it up. Squares are being embroidered for a quilt which will later be raffled. A dainty lunch was served by the hostess.

### The Women's Association.

The Women's Association met on Friday afternoon at the home of Mrs. A. Lund, with seventeen members and one visitor present. Devotional was read by Mrs. G. H. Nelson. The W. A. hymn, prayer and creed were repeated in unison. \$125 was voted for the minister's salary. Two members received birthday gifts. It was decided to hold a Bazaar and Bake Sale in the Fall. Mrs. Wm. Jensen won the travelling prize. Three dozen cups were purchased to replace the broken and cracked cups. A delicious lunch was served. The next meeting will be held at the home of Mrs. K. R. Miller.

### E. Rova

Another former old-timer of the Black Spring Ridge district passed away at Westminister, B.C., on May 17th, after a lengthy illness. The late Mr. Rova was born in Sweden, later coming to Canada and taking up a homestead in the Barons district in 1904 where he farmed until 1936 when he and his wife moved to Vancouver. Surviving are his widow Erika, two sons, and four daughters, including Mrs. Hilma Gullickson of Barons.

Mr. and Mrs. Rova celebrated their fiftieth wedding anniversary last August.

### ENGAGEMENT ANNOUNCED

Mr. and Mrs. George Davies announce the engagement of their daughter, Glenna Elaine to Mr. Allan King Fowler, son of Dr. and Mrs. D. B. Fowler of Lethbridge.

The wedding will take place on July 12th at the Alberta Temple in Cardston.

### CARD OF THANKS

Mrs. Barbara McFarland wishes to take this opportunity to sincerely thank all those who voted for her at the Lions Carnival.

### Alverson-Wilson

St. Stephen's Chapel, Edmonton, was the setting for a lovely spring wedding, the evening of May 27 when the Rev. Mr. McQueen, pastor of Robinson United Church, officiated at the marriage of Mary Elizabeth Wilson, daughter of Dr. and Mrs. A. F. Wilson, Edmonton, to John William Alverson, son of Mr. H. Alverson of Calgary.

The front of the chapel was decorated with large bouquets of spring flowers and sweetheart roses. Guests pews were marked with clusters of ribbon, sweet peas and sweetheart rosebuds.

The bride, who entered the church on the arm of her father to the soft strains of the wedding march, was lovely in a street-length dress of figured silver and blue silk. She wore a silver-toned straw hat trimmed with sprigs of blue and white lily of the valley and silver-grey mitts. She carried a small white bible decorated with a white orchid and cream sweetheart rosebuds.

Agnes B. Wilson was her sister's only attendant, she wore a corn flower silk street-length dress with carnation pink straw hat and carried a bouquet of pink carnations.

The groom was supported by Mr. Robert Woodhead and the guests were ushered to their seats by Mr. Fred Exhom.

Immediately following the ceremony a reception was held at the Windsor Tea Rooms, where Mrs. A. F. Wilson, mother of the bride, and Mrs. Ambry Lenon, sister of the groom, assisted the bridal couple in welcoming the forty guests. Mrs. Wilson wore a sparkling wine toned tailored suit with corsage of cream sweetheart rosebuds and navy blue accessories. Mrs. Lenon wore a navy blue silk dress and cream accessories, with corsage of white gardenias and pink rosebuds. The bride's table was centred by a three-tiered cake topped with sweetheart rosebuds. The table was decorated with tall pink tapers and bouquets of spring flowers.

The toast to the bride was given by Mr. John Basie. For going away, the bride donned a pearl grey topcoat and carried a straw basket purse to match.

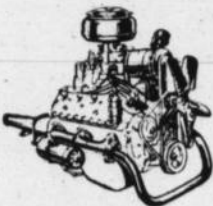

Out-of-town guests included Mr. H. Alverson and Miss Judy Alverson, father and sister of the groom, and Mr. and Mrs. R. Alverson, all of Calgary; Mrs. L. M. Wilson of Cardston, Miss L. G. Fair of Cardston, and Mrs. Hugh McGillivray, Regina.

African monkeys run wild on Gibraltar rocks.

Average profit of Canadian manufacturing companies is only six and two-fifths cents out of every sales dollar.

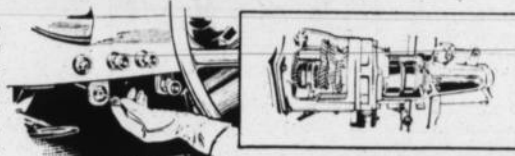

Chrome wheel trim rings and white sidewall tires optional at extra cost.

Meteor's smooth, powerful, 8-cylinder engine packs a power-punch of 100 Hp. Has "Equa-Flo" cooling, "Deep Breath" manifold, "Loadomatic" ignition, new resilient engine mounts, new silent fan.

Meteor "Touch-O-Matic" Overdrive makes highway driving even smoother and more restful. Saves up to 15% on gasoline. Increases engine life.

## Lawn Making

Proper preparation of the area to be used for lawns is all important and care in preparing the soil before seeding the lawn will eliminate many unnecessary difficulties.

Land to be used for lawns should be heavily fertilized with well rotted manure, and be well summerfallowed for at least one full year. The summerfallowing will kill undesirable plant growth and will help to indicate the hollows and humps, and will therefore aid in the levelling process.

Just prior to seeding, the lawn area should be given a shallow cultivation, then rolled or packed once or twice to give a smooth, level, firm seed bed.

Grasses suitable for use in making lawns in Northeastern Saskatchewan are Kentucky Blue, Creeping Red Fescue and fairway Crested Wheat. Kentucky Blue is not drought-resistant and is recommended only where artificial waterings can be given or in areas where there is ample moisture. Creeping Red Fescue makes a closely knitted turf and will do well in many areas without artificial waterings. Crested Wheat grass does not make a close turf but will stand a great deal of drought and is therefore valuable in dry areas where artificial watering is not practicable.

Kentucky Blue grass should be seeded at the rate of one pound of seed to one hundred and fifty or two hundred square feet and creeping Red Fescue and Fairway Crested Wheat grass at the rate of one pound to one hundred square feet of lawn surface.

Lawn seeding may be done at different times of the season. Ordinarily the best time for this operation is about the end of May or the first week in June. Crested Wheat grass may be seeded successfully just before winter sets in or early in the spring. Small lawns can be seeded by hand, the seed raked in with a garden rake. Large lawns can be drilled in shallowly, using a seed drill.

## Tenders For Coal and Firewood

The Board of Trustees, Foothills School Division No. 38 will consider tenders for supplying Schools of the Division with Coal and Firewood for the 1950-51 School Year. Address all tenders and inquiries to John W. Donald, Secretary-Treasurer, Foothills School Division No. 38, High River, on or before June 30th, 1950.

Farm Equipment  
lasts longer  
with

**MARFAK**

It STICKS to the bearings!

That's why your combine and other equipment work continuously many more hours without a stop necessary for re-lubrication. And these hours saved are money saved!

Yes, Marfak saves you time, work and expense because it "stays put!"

It won't wash out, jar out, drop out or cake up. It provides a "collar" around the open edges of bearings, effectively sealing out dirt and grit that can work their way into, and ruin, bearings.

There is no substitute for Marfak. Get some today from your McColl-Frontenac representative or your local Dealer.

## District News

### RED CROSS

Mr. and Mrs. J. N. Dew of Majorville were visitors last week at the Wm. Sharp home. Billy and Rose Sharp accompanied them home for a few days.

Mr. and Mrs. Orlo Doane and family were Calgary visitors last week.

Mr. Henry Carr and daughter, Shirley were visitors last week at the home of Mr. and Mrs. Orlo Doane.

Mrs. John Dippel and children of Crossfield and Mr. and Mrs. Martin Rausch and family, Miss Helen Rausch and Mr. Elvert Rausch all of Calgary were Sunday visitors at the home of Mr. and Mrs. J. H. Schlerman.

### ENSIGN

Mr. and Mrs. Harold Hansen and family visited with friends in Macleod on Sunday.

Mr. and Mrs. B. Brown spent a few days in Calgary last week. They were accompanied home by Mr. and Mrs. Joe Oullette who visited with friends in the district.

Mr. and Mrs. Gothard spent Sunday at the C. Mote home.

Calgary visitors the past week were Mr. and Mrs. E. Hansen, Mr. Pete Flebotte, Mr. and Mrs. G. Flebotte and Mrs. Mix.

Miss Mabel Markert of Calgary was a weekend visitor at her home here.

### BERRYWATER

Mr. and Mrs. N. K. Budd were Calgary visitors last week.

Miss Bea Neell and Lloyd Wickstrom of Calgary were weekend guests at the home of Mr. and Mrs. Reynold Lundegren. Mr. and Mrs. Ed. Smythe and family of Cowley were Sunday guests at the Lundegren home.

Mr. and Mrs. D. B. Smith and Russel were Calgary visitors on Monday.

Mr. and Mrs. C. L. Oldfield spent Thursday last at Claresholm. Mrs. C. McIntyre accompanied Mr. and Mrs. John McRoberts to Edmonton the latter part of the week.

Mrs. Verna Haga is attending the F.U.A. Young Peoples' conference at Edmonton part of the week.

Stuart Douglass was a weekend visitor at Black Diamond and Calgary.

Mr. and Mrs. Lloyd Healy of Ontario are visitors at the Lorne Healy home this week.

Sunday guests at the Roy Adam home were Mr. and Mrs. Pete Wills of Milo.

Mr. and Mrs. L. A. Douglass of Bowness spent Sunday as guests of Mr. and Mrs. L. Palmer.

Plan have been made by the congregations of Queenstown, Milo and Berrywater for an out-door service to be held at the Cluny bridge on Sunday, June 11th, commencing with basket lunch at 1 o'clock. Services will be held at 3 p.m. Everybody welcome.

The Roy Adam home is the first in the district to be wired for Calgary Power.

It is with pleasure that the community welcomes back the former news reporter, next week.

### KIRKCALDY

Mr. and Mrs. Everett Todd and family of Bellevue spent a few days at the home of Mr. and Mrs. Henry Todd last week.

Mrs. A. Main of Calgary is visiting her son and daughter in law Mr. and Mrs. Joe Main.

Mr. and Mrs. John Houlden and family of Turner Valley spent Sunday at the home of Mr. and Mrs. Brinton.

Friends are congratulating Mr. and Mrs. Doug Galbraith on the birth of a son, Stewart Douglas.

Mr. and Mrs. Ivan Haga and Judy left on Saturday for Rochester, Minn., where Judy will undergo medical examination. They were accompanied by the former's mother and brother.

Mr. and Mrs. Cameron Middleton and Mrs. Dora Middleton went to Olds on Monday. Mrs. Bob Middleton accompanied them to Calgary.

Mrs. Gordon Urquhart was the hostess assisted by Mrs. B. Dann, at a joint birthday party, last Thursday, on the occasion of the birthdays of Jackie Urquhart, Dawn and Carolyn Haga. Twelve little friends were present with their mothers and friends. An enjoyable afternoon was spent playing games, singing and fishing in a fish pond. A delicious lunch was served by the hostesses.

The Kirkcaldy W.I. catered for the U.F.W.A. conference in Vulcan on Saturday, June 3.

The Kirkcaldy Kittens journeyed to Champion on Sunday for a game against the Lion's Club. The Lions defeated the home team by a score of 24-21.

Miss Marion MacKay, Mrs. A. J. Maisey attended the A.T.A. banquet in Claresholm on Wednesday night.

Miss Marion Muro spent the

weekend at her home.

Mr. and Mrs. Howard Hagg were recent visitors at the Jim O'Reilly home.

Kirkcaldy School attended the track meet in Champion on Wednesday, May 31. The school won 62 points which was an average per pupil not equalled by any other school.

The crest for Class B boys was won by Earl Brinton.

The children enjoyed a picnic lunch on the grounds, Mrs. Hut-ton assisting Miss MacKay. Mr. A. J. Maisey donated a case of pop to the children.

### EASTWAY

Mr. and Mrs. H. Tharlie visited with Mr. and Mrs. Earl Berquist at Carseland on Friday.

Mr. and Mrs. Sep Washburn are spending a short holiday at Spring Coulee, visiting relatives.

Friends of Philip Washburn will be sorry to hear he has been confined to his home with pneumonia.

Mr. and Mrs. Stuart Campbell attended a formal dance at Cluny last Friday.

Mr. and Mrs. Bill Heymeyer and Miss Naomi McMullen have returned to their home at Verona, Oregon, after spending the last two weeks visiting Mr. and Mrs. William McMullen.

Mr. and Mrs. Emerson Brown and Miss Marian Baldwin were weekend visitors at the home of Mr. and Mrs. P. Baldwin.

Mr. and Mrs. Pat Laughlin, Mr. and Mrs. Frank Wyatt and Mr. and Mrs. George Gooch attended the Black Diamond Stampede last week.

Mrs. P. Baldwin is visiting in Calgary for a few days.

Mrs. N. Johnson has as her guest her brother, who has just arrived from Norway. They had not seen each other for over 30 years.

Mr. and Mrs. Earl Berquist of Carseland were Sunday visitors at the home of Mr. and Mrs. Sep Washburn.

Calgary visitors last week included Mr. and Mrs. H. Tharlie, Mr. and Mrs. Gordon Laycraft, Mr. and Mrs. A. Oldfield and Mrs. R. Onstad.

The district was saddened by the death of little Glenda Grondin last week. The sympathy of all is extended to the parents, Mr. and Mrs. Ed. Grondin.

Mr. and Mrs. Grondin Sr. and family of Saskatchewan are visiting at the home of Mr. and Mrs. Ed Grondin for a few days.

### SEARLE PRECIPITATION REPORT TO MAY 29.

A slight decline has taken place in the overall moisture condition of the three Prairie Provinces during this past week. The total moisture condition of the three Prairie Provinces together now stands at 72% of normal, compared with 74% last week and 66% at this time a year ago.

The total moisture condition for Alberta now stands at 56% of normal, compared with 57% last week. Saskatchewan is now 73%

## Field Days in June and July

Field days to be held in June at District Experiment Substations in Southern Alberta will feature talks on soil alkali and the importance of forage crops. The speakers who will consider these topics are Mr. U. J. Pittman and Mr. R. W. Peake both of the Dominion Experimental Station, Lethbridge, Alberta.

Mr. W. B. Fox of the Dominion Entomological Laboratory, of Saskatoon, Saskatchewan will deal with "Wireworm Problems." Mr. W. G. Goddard of the Dominion Livestock-Insect Laboratory, Lethbridge will be on hand to discuss "Livestock Insect Control." "Cereal and Forage Crop Breeding Work" will be treated by Mr. T. Kilduff, Research Extension Officer, Lethbridge.

Of interest to the ladies will be a talk on "The Smart Dressed Woman of 1950" by Miss Priscilla Mewha from the Provincial Department of Agriculture.

The program will commence with moving pictures at 2:00 p.m. Dates for substitution field days are as follows:

June 19, Monday, Nobleford.  
June 20, Tuesday, Foremost.  
June 21, Wednesday, Whitla  
June 22, Thursday, Claresholm.  
June 23, Friday, Pincher Creek.  
June 24, Saturday, Lomond.

The annual field day at the Lethbridge Experimental Station will be held on Wednesday, July 26. This promises to be an outstanding event and both farmers and townspeople are given an invitation to attend. Further details of this field day will be announced in the press and over the radio.

of normal, compared with 75% last week and Manitoba is now 110% of normal, compared with 112% last week.

The rains which have fallen during this present growing season from April 1 to May 29 in Alberta have been 41% of normal, compared with 42% last week. In Saskatchewan now 71% of normal, compared with 81% last week and in Manitoba 150% of normal, compared with 155% last week.

In Alberta all Crop Districts have had considerably less rain than normal during this present growing season except Crop Districts 15 and 16 which have had better than normal rainfall. In Manitoba all Crop Districts have enjoyed better than normal rains except Crop Districts 10, 13 and 14 which have had somewhat less than normal rains.

While the present overall rainfall condition of 72% is considerably less than normal, yet it will be remembered that last year, with a condition at this time of only 66%, better than average rains occurred later in the season which finally resulted in a fair harvest. There is, therefore, still ample time for the condition to be changed greatly for the better. — Searle Grain Co. Ltd.

Fat men! Don't look now. Statistics show your average girth is increasing and men generally average a 34-inch waist-line against 31 in 1930.

## The Donough Straw Buncher

See this new machine that makes it possible for every farmer to obtain better feed from his combining operations.

### —FEATURES—

- Gives the Farmer feed instead of bedding from his Combine.
- Often pays for itself the first season in feed saved.
- A necessity on every stock farm.
- Catches weed seeds instead of spreading them.
- Can be attached to all popular Combines, either self propelled or pull type.
- Leaves bunches in straight runs across the field.
- Tripped by operator on first round of field.
- Entirely automatic after first round.
- Bunches can be handled in any manner desired, slings and pitchforks, also sweeps and stacker, hydraulic stackers or pick up balers.
- Recommended by Implement Companies, Agricultural Departments and leading farmers.

### Brief Items of Local Interest

William Hull of Vermilion has joined the staff of the local branch of the Canadian Bank of Commerce, replacing G. J. MacGowan, who was recently transferred to Taber.

Art Hanson and Jack Marshall were business visitors to Lethbridge on Tuesday.

Mr. and Mrs. Allan Fisher and daughter Faye left Sunday evening for a two months' holiday to be spent at Toronto. They will also visit Murray Fisher at Galt, Ont.

K. Roy McLean, Optometrist, of Calgary, will be in Vulcan at the King Drug Store on Monday, June 12, from 11 a.m. to 5:30 p.m. Consult Mr. McLean in his Calgary office, 1014 Greyhound Building, daily except Monday.

Stephen Fath and I. L. Ditto of Calgary were business visitors in the town and district on Tuesday.

Mr. and Mrs. P. McAskill left Wednesday for a holiday to be spent visiting relatives at Watertown, New York State, and in Ontario.

Seiger Schotanus received word from Holland on June 5 of the death of his father, Douwe B. Schotanus, on May 29, in his 76th year.

Mr. and Mrs. V. F. Speir of Calgary were visitors at the home of Mr. and Mrs. W. M. Peters over the weekend.

Jack Taylor, tap-dancing and guitar instructor of Calgary who has been conducting classes in Vulcan for the past several months, will present his "Tip Top Revue of 1950" in the Vulcan Theatre on Monday, June 12. This stage show will present Mr. Taylor's Vulcan pupils and guest artists from Calgary, with shows at 4:30 and 8:15 p.m. Tickets are now on sale.

Mr. and Mrs. H. W. Johnston of Calgary were visitors to the Champion-Vulcan district over the weekend.

Mr. and Mrs. George Duffie of Nanton and Mr. and Mrs. Harry Roebuck of Vulcan were Sunday guests at the Walter Mix home.

Friends of Mrs. B. D. Lockhart, Calgary, formerly of Vulcan, will regret to learn she underwent a major operation in the Holy Cross hospital on Friday.

E. Kumlin and Mervin Brooks motored to Calgary on Saturday to attend the track meet for Calgary and district, where Mervin won two second prizes.

Mr. and Mrs. Walter Lundgren of Calgary were weekend visitors at the Hans Lundgren home.

Miss June Bowie of Calgary spent a few days with relatives and friends in the district at the weekend.

Mr. and Mrs. Bob Brown are being congratulated on the birth of a son, Monday, June 5th, at the local hospital.

Mr. and Mrs. Harold Bride and family motored to Drumheller on Sunday.

Mrs. Robert Grayson and family of Calgary spent the weekend at the home of Mrs. Grayson's uncle and aunt, Mr. and Mrs. W. Wylie, Sr. On their return to Calgary they found that their home had burned to the ground in their absence.

Mr. and Mrs. J. P. O'Connell were Lethbridge visitors last week. Later, Mr. O'Connell journeyed to Calgary, where he is receiving medical treatment. His friends all wish him a full and speedy recovery.

Mr. and Mrs. George Monkman of Calgary are attending farming interests in the district this week, and renewing acquaintances.

Tom Carruthers of Calgary spent a few days with friends here last week.

Mr. and Mrs. Doane of San Francisco, Cal., are guests this week at the home of their son-in-law and daughter, Mr. and Mrs. Stan Seales.

Mrs. Fred Bond and family of Hanna are spending a holiday at the home of the former's parents, Mr. and Mrs. C. Fleming.

Howard McKay of Vancouver visited briefly last week, with relatives in the district.

Friends of Mrs. Dora Middleton will be pleased to learn that her condition is somewhat improved. She spent a day at her home here the first of the week, but returned to Oids for further treatment.

Mr. and Mrs. Les Jones and infant daughter of Calgary were recent visitors for a few days at the home of the former's parents, Mr. and Mrs. R. E. Jones, enroute to Regina and Toronto.

The fine new I.O.O.F. hall at Lomond was officially opened on Thursday evening last, when I.O.O.F. members and their wives entertained Vulcan, Milo and Cayley members. A fine program was presented, following by a dance period, and the serving of lunch. Visitors report the hall a splendid asset to the town.

Mr. and Mrs. Ivan Haga and baby daughter left Saturday for Rochester, Minn., where the little girl will enter the Mayo Clinic for treatment. They were accompanied by Mrs. Haga, Sr.

In honor of Mrs. Eileen Donily, a surprise party was held at the home of Mrs. K. Louckes Tuesday evening of last week. A pleasant social period was enjoyed after which the guest of honor was presented with a reversible wool bed throw and cups and saucers, by her friends. Assisting the hostess with the serving of a dainty lunch were a number of the girls of the telephone staff.

Mr. and Mrs. L. Granlin and Darlene motored to Calgary Thursday last.

Mr. and Mrs. Herb Marsh and small son have moved into the Donily home.

Mr. and Mrs. F. J. Mensinger are at Edmonton this week, where the former is undergoing medical treatment.

Mr. and Mrs. Dick Donily and family left Saturday to take up farming in the Vermilion district.

Jimmie Brown of Calgary visited his uncle and aunt, Mr. and Mrs. Clarence Brown over the weekend.

Bud Hornberger has purchased the house moving business of Willis McIntyre and his advertisement appears elsewhere in this issue of the Advocate.

Mr. and Mrs. J. Thompson of Diamond City were guests last week at the home of their son in law and daughter, Mr. and Mrs. Buford Walker.

Mr. and Mrs. Lloyd Clark and family of Edmonton spent a few days recently with Mr. Clark's parents, Mr. and Mrs. Percy Clark.

A meeting of the Scout and Cub Mothers' Auxiliary was held in the Armories Friday evening to discuss plans for the annual Scout Rally, to be held at Black Diamond on June 10th. Scouts will leave Friday evening, the 9th, and will attend an over-night camp, while Cubs will leave Saturday morning promptly at 9:30 and be in full uniform. Each Cub will take a lunch with him for his noon meal, while the mothers will serve a hot supper at night.

### SAFETY CAMPAIGN SUCCESSFUL

The greatest voluntary vehicle inspection ever to be undertaken in Canada will end June 15 with all but a handful of cars and trucks in Alberta examined, approved, and identified with the colorful safety stickers that indicate safe brakes, lights, horns and rear-view mirror, officials of the Alberta Safety Council announced today.

While the voluntary phase of this first province wide inspection will be completed June 15, police throughout the province will continue to inspect the safety features of "stickers" machines, confident that among their number will be found the dangerously unsafe cars and trucks that have so long created a menace to the drivers of safe vehicles, the safety council's announcement explained.

With close to 90 per cent of Alberta's vehicles approved in a safe condition by June 15, it would be comparatively easy for police to inspect the remaining ten per cent during the balance of the summer, safety council officials pointed out.

Royal Canadian Mounted Police in 93 Alberta detachments and city and town police forces began their intensified vehicle inspection May 15, and by June 1 many hundreds of cars and trucks failing to display the official safety stickers had been examined by officers carrying out the provisions of the Vehicles and Highway Traffic Act.

In some areas rejections on first inspection by the police ran as high as 70 per cent. However, until June 15 drivers were being given an opportunity to have the deficiencies repaired without penalty and report back for a second inspection, or with one of the stickers issued by the 1,500 testing centres established in every section of the province.

After June 15 for the balance of the summer, owners of vehicles found defective will be liable to prosecution without further warning, the safety council pointed out.

### United Church

(Continued From Front Page)

were made here. And with the rights of the local congregation being guaranteed, the resulting system of organization is essentially Presbyterian in form.

In all courts of the Church laymen and ministers are represented equally, and have equal voting power. The "priesthood of all believers" is thus demonstrated in formation of Church policies. The laymen's movement within the United Church of Canada, is active in the evangelic life of the Church.

On June 10, 1925 in Toronto, the Methodist, Congregational, and about 9-3 of the Presbyterian Churches in Canada, formed the United Church of Canada. Several unions have since taken place; with smaller groups, or individual churches coming into the United Church of Canada. Recently the Chinese Mission in Calgary, became a church in full standing within the Union.

The text for the formation of the United Church of Canada, is John 17:21, "That they all may be one." In the unity of Christian faith, the Gospel may be proclaimed to all mankind with no distinction. Missionaries are sent throughout the world, and mission fields are established on every continent.

The first Moderator of the United Church of Canada was the Rev. G. C. Pidgeon, D.D.; and the present Moderator is the Right Rev. Willard Brewing, D.D. A service to commemorate the 25th anniversary of Church Union is to be held in the Maple Leaf Gardens, Toronto, Sunday June 11th. This is to be broadcast over the C.B.C. at 4:00 p.m. M.S.T.

On the St. Lawrence Gulf Island of Anticosti deer are so numerous they stroll into Port Muriel; must be thinned out by official hunts from time to time.

The Bible still ranks as the world's best seller, "Gone With The Wind" takes second place.
